NFPA: The National Fire Protection Association
NMC: Nickel Manganese Cobalt
NCA: Nickel Cobalt Aluminum Oxides
OSHA: Occupational Safety and Health Administration
PPE: Personal Protective Equipment
RCRA: Resource Conservation and Recovery Act

4 Introduction

Thank you for purchasing the Lithium-Ion Battery Safety Response Kit. Please read this disclaimer carefully before using the product. By purchasing and using this safety response kit, you acknowledge and accept the following terms and conditions:

5 Product Usage Disclaimer

The Lithium Ion-Battery Safety Response Kit is designed as an aid to help users respond to potential lithium ion battery incidents, such as overheating, smoke, or fire. This kit is not intended to replace professional emergency equipment or the need to contact emergency services in the event of a fire or hazardous situation.

This product is intended for initial response and containment only and shall not be construed as a certified firefighting, hazmat, or life-safety system under any OSHA, NFPA, DOT, or other regulatory standards.

6 Safety Precautions

- Always follow the manufacturer's instructions for the proper use of the safety response kit and all included components.
- Use this kit only for its intended purpose. Improper use may result in injury, property damage, or failure to mitigate hazards.
- Do not modify, substitute, or replace any component of this kit. Use only original components and accessories supplied or approved by the manufacturer.
- In the event of a fire or emergency, prioritize your safety and the safety of others. Evacuate immediately and contact your local emergency services as needed.

- This kit is designed to assist in risk reduction; however, it does not guarantee complete suppression of lithium-ion battery fires, prevention of thermal runaway, or elimination of injuries or damages.
- The performance of this kit may vary depending on cell chemistry (e.g., NMC, LFP, LCO, NCA), battery capacity, enclosure type, state of charge, and environmental conditions.

7 Storage, Maintenance, and Inspection

- Store the kit in a clean, dry, and accessible location within the recommended temperature range. Inspect all components quarterly for integrity and replace any damaged, expired, or degraded parts.
- The end user is responsible for maintaining readiness, ensuring trained personnel are familiar with deployment procedures, and replacing consumables following any use.

8 Post-Incident Handling and Disposal

Used or contaminated components (e.g., absorbents, fire blankets, PPE) and any involved batteries must be handled as potentially hazardous waste in accordance with federal, state, and local regulations, including applicable RCRA and DOT requirements. Contact a qualified hazardous waste transporter or local authority for disposal guidance.

9 Limitation of Liability

The seller and manufacturer of the Lithium-Ion Battery Safety Response Kit are not responsible for any injuries, damages, losses, or claims arising from the use, misuse, or inability to use this product.

The buyer assumes all risk and responsibility for using this safety kit.

In no event shall the seller's or manufacturer's total aggregate liability exceed the purchase price of the kit.

10 No Warranties

This product is provided "as is" without any express or implied warranties, including but not limited to warranties of merchantability or fitness for a particular purpose. Effectiveness will vary depending on the type, size, and location of the incident, as well as user training and adherence to instructions

11 Legal Notice

By using this product, you agree to release, indemnify, and hold harmless the seller, manufacturer, and their affiliates from any and all liability, claims, or damages that may result from its use. If you do not agree with these terms, do not use the product and return it in accordance with our return policy.

This disclaimer shall be governed by and construed under the laws of the State in which the product was

purchased, without regard to conflict-of-law provisions. Institutional purchasers are responsible for ensuring their use of this product complies with applicable internal EHS policies and regulatory requirements.

12 Contact Information

If you have any questions about the safe use of this product, please contact our customer support team.
